

# USING YOUR SMILE 😊

Your smile is a powerful tool. A big smile makes you look happy and confident. The more you smile the happier you will feel. A smile makes people want to talk to you. A smile softens your voice and makes you sound warm and friendly. Always put a smile on your face while making conversation.

USE YOUR SMILE WHILE COMMUNICATING.

**GAME CHALLENGE:** Look in a mirror and say the following sentences two ways - with a smile and without a smile.
